

Fentrim[®] 430 grey

high-performance adhesive tape

Primer-free flashing solution for above grade masonry connections and other critical building envelope details.

SIGA Fentrim 430 grey is a fleece-backed, semi-permeable acrylic flashing tape. The robust, polyolefin (PO) carrier resists jobsite abrasions while remaining formable and pliable, even in below freezing temperatures. Fentrim 430 grey offers superior adhesion to cured concrete, metal and wood.

CHARACTERISTICS

Available widths	4", 6", 9"
Roll length	82 ft
Water vapor transmission	1.72 US perms
Minimum surface contact for masonry substrate	2"
Max UV exposure	4 months

- ✓ high adhesive strength at high and low temperatures
- ✓ no primer required for masonry
- ✓ robust fleece backed carrier material

INSTALLATION INSTRUCTIONS

01

- Clean substrates from dust and excess moisture

02

- Apply Fentrim 430 grey along material interface while ensuring sufficient overlap

03

- Apply tape along one material while leaving the second backing strip attached

04

- Remove second backing strip while ensuring wrinkle free application

05

- Apply firm pressure to ensure proper bonding

06

- How it should look
